

### **out of the pit pdf**

History. The PIT maneuver was adapted from the bump and run technique used in stock car racing, where a driver would bump a competitor in the rear bumper to cause the other car to lose traction and swerve away from the racing line. The PIT maneuver differs from the bump and run in that the car is bumped from the side near the rear wheel, causing the vehicle in front to spin out.

### **PIT maneuver - Wikipedia**

During a scheduled pit stop, the team's pit crew services the vehicle as quickly as possible, completing a number of different services. The most common services performed are refuelling (where permitted) and changing tyres.
