THE TENDERING PROCESS. The outsourcing of services can be undertaken by means of a competitive tendering process (reference should be made to the CIPS guides on negotiation, tendering, and post-tender negotiation). There are also cases where relationships develop in such a way that the tender process is not appropriate.

specific components of the IT infrastructure in the user organization (p. 9). The latest kind of outsourcing is business process outsourcing - BPO, in which the service provider takes responsibility for a whole business process. This type of outsourcing helped popularize the concept of outsourcing beyond the industrial boundaries.

Outsourcing is when any operation or process that could be or would usually be performed in-house by an organisation's employees is sub-contracted to another organisation for a substantial period. The outsourced tasks can be performed on-site or off-site.

### **Outsourcing - ACCA Global**

The level of savings made by outsourcing companies can reach 10 to 15% on the total cost, mainly due to economies of scale. Besides financial considerations, there are some advantages of outsourcing, such as increased focus on core processes, access to resources not available internally and standardizing processes.
