Pi Day is an annual celebration of the mathematical constant π (pi). Pi Day is observed on March 14 (3/14 in the month/day format) since 3, 1, and 4 are the first three significant digits of π . In 2009, the United States House of Representatives supported the designation of Pi Day.. Pi Approximation Day is observed on July 22 (22/7 in the day/month format), since the fraction $\frac{22}{7}$ is a ...

During the Golden Age of Islam, especially during the 9th and 10th centuries, mathematics saw many important innovations building on Greek mathematics. The most notable achievement of Islamic mathematics was the development of algebra. Other notable achievements of the Islamic period are advances in spherical trigonometry and the addition of the decimal point to the Arabic numeral system.

In this section we will discuss how to solve Euler's differential equation, $ax^2y'' + bxy' + cy = 0$. Note that while this does not involve a series solution it is included in the series solution chapter because it illustrates how to get a solution to at least one type of differential equation at a singular point.
