communication, paving the way for next-generation digital applications that require highly reliable, ... This white paper offers a framework for understanding the underappreciated political dimensions of this critical technology shift. Paul Triolo Practice Head, Geo-technology.

Eurasia Group White Paper: The Geopolitics of 5G

communication model. Instead of delivering pack-ets to receivers identified by IP addresses, NDN lets consumers request desired data using application-layer names. Naming data enables NDN to secure data directly at the network layer. This is achieved by making the content of every Data packet verifiable and, optionally, confidential.

An Overview of Security Support in Named Data Networking
