24 Principles of banking and finance 18. Governments and corporations raise funds to finance their activities by issuing debt instruments (bonds) and equity instruments (shares, known in the USA as stocks). Bonds are securities that promise to make periodic payments of a sum of money for a specified period of time.

International trade is, in principle, not different from domestic trade as the motivation and the behaviour of parties involved in a trade do not change fundamentally regardless of whether trade is across a border or not. The main difference is that international trade is typically more costly than domestic trade.

International Finance 7 It is important to measure the performance of an economy. Balance of Payment (BOP) is one way to do so. It shows the big picture of the total transactions of an economy with other economies. It takes the net inflows and outflows of money into account and then differentiates them into sections.
