

project financing asset based pdf

Project finance is the long-term financing of infrastructure and industrial projects based upon the projected cash flows of the project rather than the balance sheets of its sponsors. Usually, a project financing structure involves a number of equity investors, known as 'sponsors', a 'syndicate' of banks or other lending institutions that provide loans to the operation.

Project finance - Wikipedia

Usage. Asset-based lending is usually done when the normal routes of raising funds is not possible, such as the capital markets (selling bonds to investors) and normal unsecured or mortgage secured bank. This is often because the company has exhausted other capital raising options or needs more immediate capital for project financing needs (such as inventory purchases, mergers, acquisitions ...
