Managers are increasingly aware that strategic judgments need to be made in the context of risk assessments. It has been proposed that strategic performance management systems, such as the balanced scorecard (BSC), offer a useful framework for integrating strategic risk and performance information to provide managers with a more comprehensive overview of their strategy.

The interplay between strategic risk profiles and

Fig. 1 shows the strategic social media marketing framework with its four central dimensions. First, social media marketing scope addresses the question whether companies use social media marketing predominantly for communication with one or a few stakeholders or comprehensively (both externally and internally) as a genuine tool for collaboration. . Defenders use social media marketing ...
